Enquiry form

Below are a number of questions that will help us formulate a treatment plan for your farm. Treatment will vary depending on pond sizes, loading from wash down, and how full your system is at present. Please answer as accurately as you can. Thank you.

Please email the completed document to info@dairyeffluentsolutions.com.

Describe your current effluent system, including disposal of liquid?

How big is your solids pond?

When was it last emptied? And how would you describe its current status?

How many cows do you milk?

Are you seasonal or year round suppliers?

If year round what is your breakdown?

Do you milk once, twice or three times a day?

How long on average does milking take?

Please give us a brief breakdown of your feeding system.

Do you use a feed pad where the effluent runs into your ponds?

How long do cows spend on the feed pad per day?

Thanks for your enquiry.

Please email the completed document to info@dairyeffluentsolutions.com.
